

My goals and plan on my website based on my learning on W3school is, I want to create a website about a spring resort or an echo tourism park that located in our barangay that name Liliongan Echo Tourism Park and Resort.

My Goals:

- I want to create a Home page where the whole resort will see.
- I want to create a Discover page where you'll see the different part of the resort.
- I want to create a Services page where you'll know what's their different services.
- I want to create a Contact us page where they can contact the resort or make a reservation.
- I want to create an About us page so that they will know about the resort and where it is located.
